

ROLAND ELECTRONIC
Innovation IS OUR LIFE

Current Business Information

ROLAND ELECTRONIC GmbH is carefully observing the situation and its effects concerning the spread of SARS-CoV-2 (new corona virus). We comply with the measures prescribed by the Federal Ministry of Health, the Robert Koch Institute, respectively the Swiss Federal Council and the Federal Office of Public Health (BAG).

All measures taken are aimed at protecting the health of our employees and our customers and ensuring that our business activities are carried out in the usual quality.

At the present time, the availability of our products is assured. However, there may be delays in individual deliveries due to restrictions to contain the spread of the virus. So far, no bottlenecks have been reported.

The situation is reassessed daily. Thanks to our international network we are still able to react in most countries. We kindly ask for your understanding in case of occurring bottlenecks due to country-specific regulations which may restrict the deployment. Should the situation change, we will inform you.

We wish you all, employees, partners, customers: stay healthy!

Roland Electronic GmbH - Otto - Maurer Straße 17 - 75210 Keltern - Germany
